ZETARIS APPOINTS FINANCIAL SERVICES AND TECHNOLOGY LEADER DAVID WHITEING AS CHIEF OPERATING OFFICER

MELBOURNE, AUSTRALIA, April 27 2022 -- Zetaris, the instant analytics on any data, anywhere company, today announced it has appointed financial services and technology leader, David Whiteing to the newly created position of Chief Operating Officer and as an Executive Director of the company, effective immediately.

As a result of Mr Whiteing's appointment, Founder and CEO Vinay Samuel will move to the US to spearhead the company's international growth.

Commenting on this important appointment, Founder and CEO Vinay Samuel said: "We are delighted David is joining Zetaris. He is a highly regarded business leader whose international experience and strategic mindset will help build on our strong technological platform and respond to the growing demand of our customers for efficient, protected, decentralised data."

Rob McLean, Chairman of Zetaris added: "We are very pleased to have appointed David as our COO and Director of our company. We are seeing strong momentum behind the growth in our business, domestically and internationally, and with Vinay's move to the US we will benefit from David's guidance and support in this market. Zetaris customers and team members have much to gain from David's extensive operational experience in developing technological solutions for numerous organisations across various sectors."

Mr Whiteing joins Zetaris from his role as Group Chief Operating Officer at Standard Chartered Plc, a role he has held for four years. Prior to that he served as the Chief Information Officer and Group Executive of Enterprise Services at Commonwealth Bank of Australia (CBA) for four years. He initially joined CBA in 2013 to lead the newly formed Architecture and Planning team in Enterprise Services. Prior to that, he was Vice President of Enterprise Systems at BP in the United Kingdom and worked as an Accenture partner with extensive SAP experience.

Commenting on his appointment, David Whiteing said: "I am excited by the opportunity to join such a forward-thinking team at Zetaris and to participate at such an important time in the company's growth. The problems we are solving were pivotal issues in my previous roles and the strong customer response to our unique offering at Zetaris is testament to the need for fast, secure, intelligent decentralised data solutions. I am looking forward to using my experience in implementing technology strategies to deliver high performance for our clients."

Among Zetaris' customers are leading telecommunications, banks, retail and government customers including Telstra, Optus, Nokia, BUPA, Melbourne Water and Murdoch Children's Research Institute.

About Zetaris

Zetaris was founded in 2013 by Vinay Samuel to disrupt the world by enabling instant analytics on decentralized data. Zetaris is solving real-world problems for data platform and analytics leaders.

The Zetaris Networked Data Platform is the world's fastest governed distributed data analytics platform reducing the need for duplicate data and providing significant cost savings for data projects.

Fundamentally, the Zetaris Networked Data Platform allows customers to link data from disparate sources and analyse it without the need to recode or physically copy it to a central location or data warehouse and all without saturating their networks in traffic or compromising security.
